WORK SKILLS

INTRODUCTION TO SKILLS FOR CREATIVE DIGITAL DESIGN

COURSE SUMMARY:

Did you know there is a growing demand for jobs needing digital skills in Suffolk? Are you interested in learning about digital skills or updating your knowledge towards employment? This workshop will introduce you to the important aspects of digital design from developing a website, choosing a domain name, how to manipulate images as well as helping you develop your analytical skills through product investigation and understanding of marketing and promotion. You will build your creative design skills ready to progress onto the Skills for Creative Digital course or employment.

ENTRY REQUIREMENTS:

- No prior requirements needed apart from a willingness to join in group discussion and activities

AWARD:
Unaccredited
